TO THE TRADE.

Having changed and very much enlarged our line of Furniture, it becomes necessary to issue a new Illustrated Catalogue, which we now present to the trade. We earnestly hope that this our new issue, will be received as proof that we intend to fill a place in the front rank of Manufacturers of this country. Manufacturing only Poplar Furniture and Chairs, we respectfully submit the fact that we can sell any thing in our line for *LESS MONEY* than other Manufacturers who manufacture a full line of furniture. In proof of which fact we ask that you compare carefully our prices and our goods with the prices and the goods of other Manufacturers.

Any piece of furniture illustrated in any cut of suits may be ordered separate from suit and will cost the same as the price named for that article in our price list of suits.

Respectfully yours,

January 1, 1884.
